CASE ERECTOR

CE 710

Machine to erect RSC cases with hotmelt or tape (Fefco 0201):

- Easily accessible blank magazine
- Transport system independent on width tolerance of cases
- Easily accessible machine
- Simple construction with minimum maintenance
- Modular machine adaptable to hotmelt or tape
- Optional: Fefco 0200 and 0202

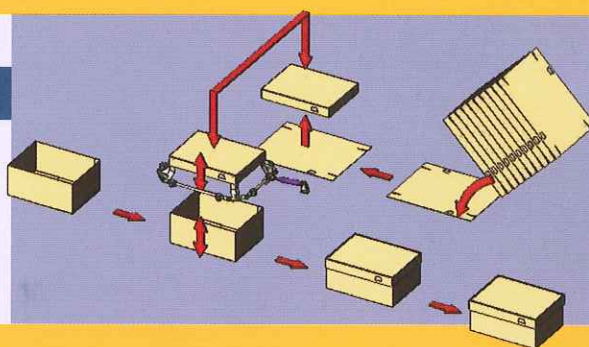

LID APPLICATOR

LAS 10-20

Machine to form and place lid on case or tray

- Large size range
- Compact and accessible machine
- Easy and fast changeover
- Lids with: mechanical lock / glue lock / same height as case or tray
- Simple construction with minimal maintenance
- Perfect positioning of lid even on irregular case or tray

GANTRY ROBOT

GR 600

Compact machine for palletising applications.

- Possible for different lines with different products.
- Very stable construction
- High quality components
- Maximum reliability
- High flexibility
- Easy operation
- Product related gripper

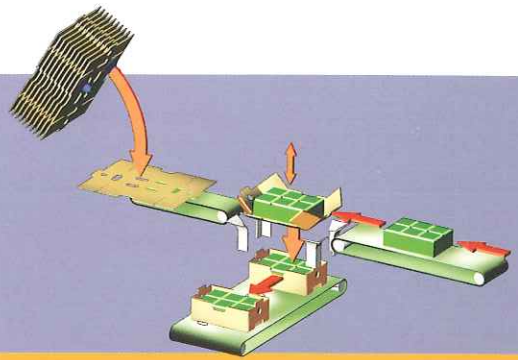

TRAY MAKER FILLER

TMF

Machine to place product on blanks and push the whole through a forming tool

- Product is not lifted
- Extremely compact machine
- Easily accessible blank magazine
- Easy operation
- Simple construction with minimum maintenance

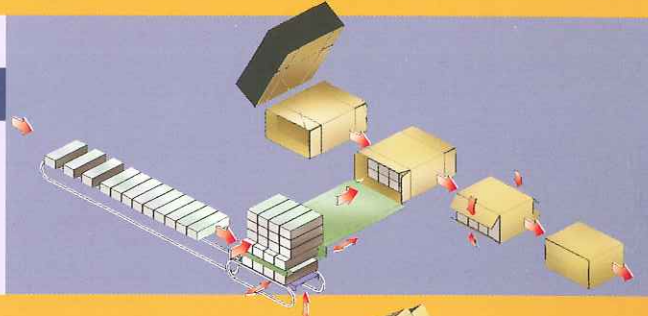

SIDE LOADER

SL 315

Machine to erect, load and close RSC cases (Fefco 0201)

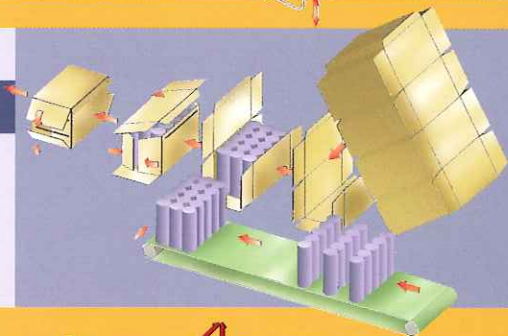

- Large carton size range
- Compact and accessible machine
- Easy & fast changeover
- Flap sealing with hotmelt glue or tape
- Machine capable of handling various pack patterns.

WRAP AROUND

WA 315

- Large carton size range
- Compact and accessible machine
- Easy & fast changeover
- Flap sealing with hotmelt glue
- Machine capable of handling various packaging models:
"Full" wrap around / Wrap around with shortened flaps / Trays ...

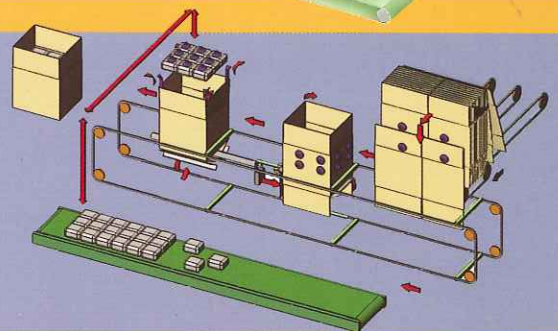

TOP LOADER

TL

Top loader to erect, load and close RSC cases (Fefco 0201)

- Easily accessible blank magazine
- Reliable opening of blanks
- Easy and fast changeover
- Capable to form different pack patterns
- Large range of case dimensions
- Closing with hotmelt glue or tape

COMPLETE END OF LINE PROJECTS

By integrating different types of machines AVERCON can deliver complete end of line projects.

Advantages:

- One partner
- Maximum flexibility
- Uniformity in components
